## PROFESSIONAL SUMMARY

MBA candidate with experience in financial modelling, financial analysis, reporting, and Excel-based data analytics. Proven ability to analyze datasets, support forecasting models, improve reporting accuracy, and assist business decision-making. Exposure to consulting, manufacturing, and automotive sectors. Seeking entry-level roles in Financial Analysis, Business Analysis, Consulting, or Analytics.

## PROFESSIONAL EXPERIENCE

### **Financial Modelling Intern | KRG Strategy Consultants Pvt. Ltd. | Dec 2025 – Present**

- Collected and analyzed 1,000+ rows of financial and operational data to support financial models and forecasts.
- Performed data cleaning and validation, improving dataset accuracy by ~15–20%.
- Assisted in building Excel-based financial models covering revenue, cost, and scenario analysis.
- Prepared weekly analytical summaries and reports used for consulting recommendations.
- Interpreted real-world datasets to identify cost trends, revenue drivers, and business risks.

### **Financial Analysis & Reporting Intern | Khandelwal Edible Oils Pvt. Ltd., Bareilly (U.P.) | Aug 2025 – Sep 2025**

- Assisted in preparation and analysis of monthly financial reports for ₹5–10 crore+ operational data.
- Analyzed sales, expense, and ledger data (500+ entries) to support management reporting.
- Supported budgeting and variance analysis, helping identify 5–8% cost deviations.
- Used MS Excel (VLOOKUP, IF, SUMIFS) to organize and summarize financial information.

- Contributed to improving reporting turnaround time by ~10–15% through structured data handling.

**Sales & Customer Relationship Management Intern | NEXA – Coral Motors Pvt. Ltd.  
Bareilly(U.P.) | Aug 2024 – Sep 2024**

- Assisted sales team in handling 20–30 customer interactions daily during showroom operations.
- Supported customer data entry, follow-ups, and lead tracking for 100+ prospective customers.
- Helped improve customer query resolution time by assisting with documentation and coordination.
- Gained exposure to CRM processes, sales funnel stages, and dealership operations.

**PROJECTS**

**FEH – Faster Education Hub (SDG 4: Quality Education)**

- Designed an education app prototype addressing accessibility challenges across multiple learning levels.
- Conducted user research and problem mapping using Design Thinking methodology.
- Proposed AI-based personalization and AR/3D learning modules, improving engagement potential by 30–40%.
- Aligned the solution with UN SDG 4 – Quality Education, focusing on scalability and inclusivity.
